

ORANGE TRAFFIC CONE

TC18 / TC28 / TC36

The base section is permanently bonded to the conical section by injection process, to increase its durability. Its material is flexible, resistant to the elements and to the impact of vehicular traffic. With a smooth finish surface that prevents them from being impregnated with oils or dirt. They are stackable to save storage space and easy transport.

Features

- The 28" and 36" models have two reflective collars: 6" (15 cm) wide upper collar, high intensity reflective tape. 4" (10 cm) wide lower collar, high intensity reflective tape.
- The 18" model has a 6" (15 cm) reflective tape.

Material

Body: 100% fluorescent orange PVC, previously treated against UV rays, for greater resistance to fading.

Base: black recycled PVC material.

Standard

Reflective collars comply with ASTM D 4956 standard.

Modelos disponibles

Reference	High	Base	Collars	Weight
TC18/1	45 cm (18")	28 cm x 28 cm	1	1.6 kg (3.52 lb)
TC28/2	70 cm (28")	36 cm x 36 cm	2	3.2 kg (7.05 lb)
TC36/2	91 cm (36")	36 cm x 36 cm	2	4.2 kg (9.25 lb)
